CONSTRUCTION OF FOREST RAILROADS, ROPEWAYS UNDER WAY

The Croatian Ministry for the Wood Industry has approved additional credit for the construction of forest railroad lines and roads to new forest districts. The largest investment is planned for the Bilo Gora and Moslovacka Gora districts and for Kraljic.

In Krizevac Srez, a 6-kilometer forest road is being built from Glogovnica to Stup.

A 1,500-meter ropeway, the first to be installed in northeastern Slovenia, was put into service on 13 June. It extends from the truck road near the Podvelka railroad station in Dravska Dolina to the mountain, where 6,000 cubic meters of cut wood await transportation. The construction of the ropeway required only 6 days.

[Borba, No 137, 11 Jun 49 - Six more ropeways of the same type will be built in the Pohorje this year.]
